brief intro

Games Warehouse and Merit Entertainment are both market leading businesses with their **Paragon** and **Megatouch** brands the dominant pay-to-play video game terminals in their respective core business sectors. Collectively, as you read this, there are more than 250,000 of these terminals earning cash for operators throughout the world.

This Product Guide is intended to give you an insight into the entertainment and gaming terminals that make up the Games Warehouse and Merit Entertainment portfolios. More detailed information can be obtained by telephoning our UK headquarters on **01159 700 722** or emailing: **sales@gwhl.co.uk**

Entertainment Terminals

Paragon Fixed Odds Betting Terminal (FOBT)

Elegant Paragon styling lends itself to acceptability across a diverse range of locations. By incorporating specialist software, on the Windows XP™ operating system, together with Trident ticket redemption and an NV10 note acceptor with stacker, we have created an FOBT option that delivers efficiency, reliability, security and unrivalled aesthetics.

FOBT

video skill with prize (SWP)

Paragon is the most successful multi-game SWP of all time with more than 8,000 terminals sold in the UK alone. With its unique GamePack SMART software, it hosts the highest earning cashbox in its class.

Paragon Pro introduces connectivity to this proven package. Pro-19 and Pro-23 have 19" and 23" monitors respectively, plus optional factory-fitted GPRS modem. Automated dial-up delivers invaluable machine data to our back office which operators can access via a secure website portal. Two-way data flow means Paragon Pro can also host tournaments, including the internationally proven Merit Megatouch™ games, creating a network of up to 10,000 terminals.

An unprecedented 12-month warranty, regular game software updates, unique content licensing and tailored financial plans makes either Paragon Pro model both highly desirable and comfortably affordable.

Paragon Pro 19" & 23"

Entertainment Terminals

Digital Gaming Platform

The stunning Infiniti Digital Gaming Platform has proved to be a revelation. Aesthetically, it follows the Paragon tradition of being an instant eye-catcher. And it has the personality to match its looks. Dual 19" LCD high resolution touchscreen monitors offer a player interface of previously unknown quality, whilst traditionalists welcome the button panel providing a built-in player alternative.

Connectivity is the most sought after development in our market. Infiniti has an optional factory-fitted GPRS modem and broadband capability. Automated dial-up delivers data to our back office, enabling operators to study cash-in figures, payout percentages and gameplay statistics via a secure website portal.

The longevity of Infiniti is ensured thanks to our proven SMART software engine. An ever-changing portfolio of gaming content, including proven favourites such as Roulette, card games and high-tech AWP style games, will continue to deliver a content mix to please all players.

Infiniti is the future of the pay-to-play gaming terminal for single site, arcade, private members clubs, LBO and casino.
